## WORK EXPERIENCE

- ### Web Developer

**MIDWAY WEB DEVELOPMENT** Oct 2021 – Present

  - Working in using React JS components, Forms, Events, Keys, Router, Animations, and Flux concept.
  - Working on an Agile (Scrum) Development Team to deliver regular updates to business teams and project managers.
  - Implementing stable React components and stand-alone functions to be added to any future pages.
  - Developing web applications using a React framework, Next.js.
- ### Software Development Intern

**RIPEMETRICS** Jul 2020 – Oct 2020

  - Expand and maintain the backend test suite for an innovative Customer Experience (CX) platform.
  - Implement new features using test-driven development (TDD) principles.
  - Build RESTful APIs for storing and retrieving store and customer data.
  - Design and implement data structures using migrations and models in Laravel.
- ### Mobile Developer Intern

**SOOK APPS** Mar 2013 – Oct 2013

  - Worked on two Android projects, Godzilla AR app, Oakley Airwave 1.5
  - Learned basics of Java. Helped on the development of Oakley app framework, splash screen, and navigation throughout the app.
  - Acquired basic xml skills. Positioning images in the right place for the Godzilla app, making sure images would be set in the correct position throughout different devices.
  - Proven track record of being part of the successful delivery of projects across the entire app life cycle: concept, design, build, deploy, release to google play and support.
